

(Am Schießhaus) near the university. This means that not only can you show your test result digitally here at the university, but also when you go shopping or to the hairdresser.

By using the app  we hope to be able to organise events

with an audience again in the future once the incidence rates in the city have decreased. Therefore, we ask you to support the trial run and for a large number of you to use the app.

You can register accompanying persons without a smartphone in your own  app as accompanying persons.

Since the university is obliged to record contact details, your registration

via the app  will make filling in lists by hand and the associated disinfection measures easier for staff.

Thank you for your support; we are looking forward to a successful test phase.

Best regards,

Eileen Mühlbach
Chancellor
